White Cap, LLC
2201 West Maryland Street
Evansville, IN 47712

Re: 163-15772
Second Administrative Amendment to
Part 70 163-6913-00003

Dear Mr. Bugnitz:

White Cap, LLC was issued a permit on January 19, 1999 for a stationary fabricated metals products operation located at 2201 West Maryland Street, Evansville, Indiana. A letter requesting permit changes was received on June 19, 2002. The changes related to the transfer of insignificant emission units from the Richmond plant to the Evansville plant with emissions below significant thresholds. According to 326 IAC 2-7-11(a)(8), an administrative amendment may be used for a change that "revises descriptive information where the revision will not trigger a new applicable requirement or violate a permit term". The requested changes meet this condition, therefore, pursuant to the provisions of 2-7-11 the permit is hereby administratively amended as follows (~~strikeout~~ to show deletions and **bold** to show additions):

(1) The description of insignificant activities is amended as follows:

A.3 ~~Specifically Regulated~~ Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-7-4(c)]
[326 IAC 2-7-5(15)]

This stationary source also includes the following insignificant activities ~~which are specifically regulated~~, as defined in 326 IAC 2-7-1(21):

- (1) One (1) natural gas fueled Bryan boiler, with maximum heat input capacity of 0.45 million British thermal units per hour (mmBtu/hr);
- (2) **One (1) UV printing line;**
- (3) **Four (4) cap manufacturing curing ovens (Press Lines), each with a maximum heat capacity of 0.8 mmBtu/hr;**
- (4) **One (1) compound curing press line.**

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Madhurima Moulik, at (800) 451-6027, press 0 and ask for Madhurima Moulik or extension 3-0868, or dial (317) 233-0868.

Sincerely,

Paul Dubenetzky, Chief
Permits Branch
Office of Air Quality

White Cap, LLC
2201 West Maryland Street
Evansville, Indiana 47712

This permit is issued in accordance with 326 IAC 2 and 40 CFR Part 70 Appendix A and contains the conditions and provisions specified in 326 IAC 2-7 and 326 IAC 2-1-3.2 as required by 42 U.S.C. 7401, et. seq. (Clean Air Act as amended by the 1990 Clean Air Act Amendments), 40 CFR Part 70.6, IC 13-15 and IC 13-17.

Operation Permit No.: T163-6913-00003	
Issued by: Janet G. McCabe, Assistant Commissioner Office of Air Management	Issuance Date: January 19, 1999

Exemption No.: 163-11509 Issuance Date: December 8, 1999
First Administrative Amendment No.: 163-14700 Issuance Date: August 23, 2001

Second Administrative Amendment No.: 163-15772		Pages Modified: 6
Issued by: Paul Dubenetzky, Branch Chief Office of Air Quality	Issuance Date:	

- (A) One (1) offset lithographic printing press, with maximum capacity of 4200 metal sheets per hour;
 - (B) One (1) roll coating operation, with maximum capacity of 4200 metal sheets per hour; and
 - (C) One (1) natural gas fueled curing oven, with maximum heat input capacity of 3.0 million British thermal units per hour (mmBtu/hr);
- (4) One (1) metal printing and coating line, constructed in 1986, identified as Line 2805, using one (1) 6.0 million British thermal units per hour (mmBtu/hr) thermal oxidizer (1870) as control, exhausting to one (1) stack (1870), consisting of the following equipment:
- (A) One (1) offset lithographic printing press, with maximum capacity of 4200 metal sheets per hour;
 - (B) One (1) roll coating operation, with maximum capacity of 4200 metal sheets per hour; and
 - (C) One (1) natural gas fueled curing oven, with maximum heat input capacity of 6.0 million British thermal units per hour (mmBtu/hr);

A.3 Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-7-4(c)]
[326 IAC 2-7-5(15)]

This stationary source also includes the following insignificant activities, as defined in 326 IAC 2-7-1(21):

- (1) One (1) natural gas fueled Bryan boiler, with maximum heat input capacity of 0.45 million British thermal units per hour (mmBtu/hr);
- (2) One (1) UV printing line;
- (3) Four (4) cap manufacturing curing ovens (Press Lines), each with a maximum heat capacity of 0.8 mmBtu/hr;
- (4) One (1) compound curing press line.

A.4 Part 70 Permit Applicability [326 IAC 2-7-2]

This stationary source is required to have a Part 70 permit by 326 IAC 2-7-2 (Applicability) because:

- (a) It is a major source, as defined in 326 IAC 2-7-1(22).
- (b) It is a source in a source category designated by the United States Environmental Protection Agency (U.S. EPA) under 40 CFR 70.3 (Part 70 - Applicability).
